

A photograph of a modern interior space, likely a lounge or reception area. In the foreground, a long, white, rectangular table is positioned. On the table sits a tall, clear glass vase containing a bouquet of dried, light-colored flowers. Behind the table, a light-colored sofa with several cushions is visible. The background features a wall with horizontal wooden slats and a large, white, curved pendant light fixture. The ceiling is also made of wooden slats and has several recessed lights. The floor is made of light-colored tiles. The overall design is clean, minimalist, and modern.

INDEKO

WE COVER YOU

Whether it starts with an innovative design and material proposal or the compliance of a required specification, at **INDEKO** we have the passion and commitment, along with the technical and human capacity to carry out any large scale projects.

■ Integrity ■ Teamwork ■ Reliability ■ Empathy

INDEKO

WE IMPLEMENT.

Since 2005, **INDEKO®** has been an integral solution in the design, transformation and installation of worldwide quality surfaces applying State of the Art technology in cutting, fabricating and design processes.

INDEKO continues to invest in advanced technologies allowing us to offer our clients new possibilities with materials that adapt perfectly to your design concepts.

More than 15 years
of experience.

Extensive
infrastructure.

Collaborators
highly trained.

INDEKO has the honor to transform projects with leading brands such as:

At **INDEKO**, we know how important it is for our clients to count on trustworthy suppliers compromised with delivering quality projects on time. Our operations team and guarantees are designed to support each project.

Our years of experience have positioned us as the **No. 1 surfacer transformer** in the market, being the only ones in Latin America with manufacturer warranties and certificates.

OUR **SOCIAL** **RESPONSIBILITY**

At **INDEKO**, we are a company committed to the environment, our facilities are 100% solar, helping to protect our planet from climate change, taking advantage of the sun's rays, significantly reducing our carbon footprint.

HUMAN POTENTIAL

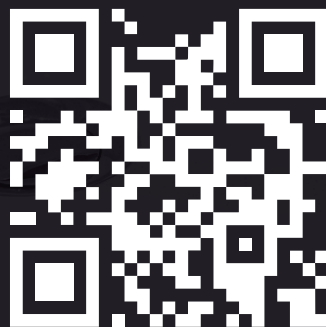

- ✓ We generate programs that promote the personal development of our collaborators, we activate continuous improvement programs internally and we promote the integration of families through social and recreational activities.
- ✓ We currently support the maintenance of the Sports Unit El Vigía, to provide our society with recreational spaces that are in excellent condition so that young people and families alike can enjoy.
- ✓ Goal 2030 to be self sustaining of environmental products.
